

Partner Services houses Partner Validations WMC Global has conducted on behalf of CTIA for short code registry lessees. A Partner Validation is a background check meant to ensure that the companies working with you pursue sound business practices and maintain upstanding reputations in the industry. Partner Validations protect the market from high-risk participants that could damage customer experiences and impair market success.

Accessing Partner Services

You can access Partner Services directly from www.usportal.wmcglobal.com/ps or from within Market Monitor.

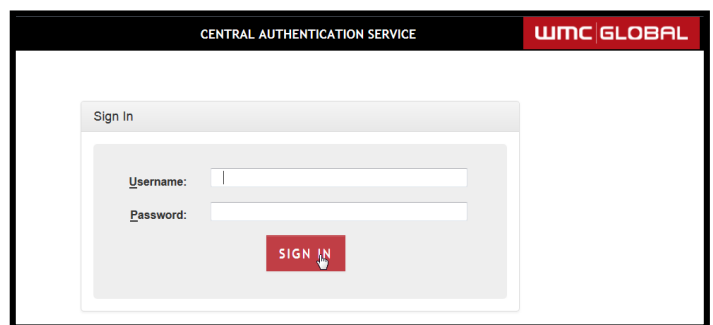

To access Partner Services from its direct link, complete the following steps.
